## Profile

I Am a front-end developer and web designer with 2 years of experience, specialized in creating visually appealing and highly functional interfaces. I have a solid knowledge of HTML, CSS and JavaScript, and expertise in advanced technologies such as React, Next.js, Tailwind CSS and TypeScript. In addition, I use web design tools such as WebFlow and Figma. Committed to delivering high-quality results, I am ready to add value to your team

## Employment

### 1. E-commerce Project

**Link :** <https://dev-market-redux.vercel.app/>

The Next.js e-commerce project is built using React, Next.js, TypeScript, Redux, and Tailwind CSS. It features a dynamic product catalog fetched from an API, with features such as filtering by categories, brands, and prices. The Redux store manages the global state, ensuring continuous updates between components.

### 2. Showcase Project

**Link :** <https://phone-shop-mu.vercel.app/>

The Next.js Phone showcase uses React, Next.js, TypeScript, and Tailwind CSS. It showcases a dynamic catalog of phones, including the iPhone 15 and RedMagic 9 Pro. Showcase pages feature animations created with Framer Motion, highlighting unique features. Redux manages the global state, ensuring real-time updates, with filtering capabilities by brand, specs, and price.

### 3. My portfolio

**Link:** <https://nextjs-portfolio-pedro-maciel.vercel.app/pt>

My portfolio was developed in Next.js, with internationalization support through next-intl, allowing you to switch between English, Portuguese and Japanese. Dynamic animations were created with Framer Motion, providing an immersive visual experience. In addition, the portfolio includes dark mode to improve usability, offering a personalized user experience.
